Journal of Sports Sciences, 1987, **5**, 357–359

Subject index

Acute haemolysis, endurance exercise, haptoglobin, marathon running, sports anaemia, 55
Affect training, skiing, sports psychology, fun, feelings, motivation, 337
Alpine skiing accidents, Swiss study on skiing safety, transport-quotient, severity of injury, binding adjustment, 319
Anaerobic threshold, training, athletes, $\dot{V}O_2$ max, heart volume, 273
Anthropometry, body composition, elite athletes, 287
Anthropometry, somatypology, ice hockey, skiing, body composition, 197
Athletes, $\dot{V}O_2$ max, heart volume, anaerobic threshold, training, 273
Basketball, volleyball, standard score, talent selection, fitness, 49
Binding adjustment, Swiss study of skiing safety, transport-quotient, severity of injury, 319
Bioenergetics, ice hockey, fatigue, central vs peripheral, skeletal, excitation-contraction processes, 305
Biomechanics, speed skating, skating propulsion, 249
Boats, sport, rowing, fluid mechanics, 93
Body composition, anthropometry, somatypology, ice hockey, skiing, 197
Body composition, elite athletes, anthropometry, 287
Cadaver studies, sex differences skinfold, skin thickness, 3
Cardiac hypertrophy, echocardiography, weight lifters, 147
Cause of accicent, prevention, cross-country skiing, injury patterns, 187
Causes of injury, rules of the game, protective clothing, ice hockey, 327
Central vs peripheral, skeletal muscle, excitation-contraction processes, bioenergetics, ice hockey, fatigue, 305
Coxo-femoral joint, hamstring muscles, goniometry, stretching, flexibility, 39
Cross-country skiing, injury patterns, cause of accident, prevention, 187
Echocardiography, weight lifters, cardiac hypertrophy, 147
Elite athletes, anthropometry, body composition, 287
Endurance exercise, haptoglobin, marathon running, sports anaemia, acute haemolysis, 55
Endurance, specificity, muscle metabolism, training, 105
Excitation-contraction processes, bioenergetics, ice hockey, fatigue, central vs peripheral, skeletal muscle, 305
Fatigue, central vs peripheral, skeletal muscle, excitation-contraction processes, bioenergetics, ice hockey, 319
Feelings, motivation, affect training, skiing, sports psychology, fun, 337
Fitness, basketball, volleyball, standard score, talent selection, 49
Flexibility, coxo-femoral joint, hamstring muscles, goniometry, stretching, 39
Flexibility, growth, training, selection, soccer, muscle strength, 165
Fluid mechanics, boats, sport, rowing, 93
Fun, feelings, motivation, affect training, skiing, sports psychology, 337
Goniometry, stretching, flexibility, coxo-femoral joint, hamstring muscles, 39

Growth, training, selection, soccer, muscle strength, flexibility, 165
Hamstring muscles, goniometry, stretching, flexibility, coxo-femoral joint, 39
Haptoglobin, marathon running, sports anaemia, acute haemolysis, endurance exercise, 55
Heart voluem anaerobic threshold, training, athletes, $\dot{V}O_2$ max, 273
Ice hockey, causes of injury, rules of the game, protective clothing, 327
Ice hockey, fatigue, central vs peripheral, skeletal muscle, excitation-contraction processes, bioenergetics, 305
Ice hockey, skiing, body composition, anthropometry, somatypology, 197
Injury patterns, cause of accident, prevention, cross-country skiing, 187
Iron status, winter sports, performance, 261
Load, performance, material tests, subject tests, energy loss, playing surfaces, 117
Marathon running, sports anaemia, acute haemolysis, endurance exercise, haptoglobin, 55
Material tests, subject tests, energy loss, playing surfaces, load, performance, 117
Motivation, affect training, skiing, sports psychology, fun, feelings, 337
Muscle metabolism, training, endurance, specificity, 105
Muscle strength, flexibility, growth, training, selection, soccer, 165
Osteoporosis, stress fracture, physical activity, 155
Performance, iron status, winter sports, 261
Performance, material tests, subject tests, energy loss, playing surfaces, 117
Physical activity, osteoporosis, stress fracture, 155
Playing surfaces, load, performance, material tests, subject tests, energy loss, 117
Prevention, cross-country skiing, injury patterns, cause of accident, 187
Protective clothing, ice hockey, causes of injury, rules of the game, 327
Rowing, fluid mechanics, boats, sport, 93
Rules of the game, protective clothing, ice hockey, causes of injury, 327
Selection, soccer, muscle strength, flexibility, growth, training, 165
Severity of injury, binding adjustment, Swiss study of skiing safety, transport-quotient, 319
Sex differences, cadaver studies, skin thickness, skinfold, 3
Skating propulsion, biomechanics, speed skating, 249
Skeletal muscle, excitation-contraction processes, bioenergetics, ice hockey, fatigue, central vs peripheral, 305
Skiing, body composition, anthropometry, somatypology, ice hockey, 197
Skiing, sports psychology, fun, feelings, motivation, affect training, 337
Skinfold, skin thickness, sex differences, cadaver studies, 3
Skin thickness, skinfold, cadaver studies, sex differences, 3
Soccer, muscle strength, flexibility, growth, training, selection, 165
Somatypology, anthropometry, ice hockey, skiing, body composition, 197
Specificity, muscle metabolism, training, endurance, 105
Speed skating, skating propulsion, biomechanics, 249
Sport, rowing, fluid mechanics, boats, 93
Sports anaemia, acute haemolysis, endurance exercise, haptoglobin, marathon running, 55
Sports psychology, fun, feelings, motivation, affect training, skiing, 337
Standard score, talent selection, fitness, basketball, volleyball, 49
Stress fracture, physical activity, osteoporosis, 155
Stretching, flexibility, coxo-femoral joint, hamstring muscles, goniometry, 39
Subject tests, energy loss, playing surfaces, load, performance, material tests, 117

Swiss study on skiing safety, transport-quotient, severity of injury, binding adjustment, 319
Talent selection, fitness, basketball, volleyball, standard score, 49
Training, athletes, $\dot{V}O_2$ mas, heart volume, anaerobic threshold, 273
Training, endurance, specificity, muscle metbolism, 105
Training, selection, soccer, muscle strength, flexibility, growth, 165
Transport-quotient, severity of injury, binding adjustment, Swiss study on skiing safety, 319
$\dot{V}O_2$ max, hear volume, anaerobic threshold, training, athletes, 273
Volleyball, standard score, talent selection, fitness, basketball, 49
Weight lifters, cardiac hypertrophy, echocardiography, 147
Winter sports, performance, iron status, 261
